

A day in the life of a Family Day Care Educator

Bellingen Family Day Care, auspice by Open Arms Care Inc. has been part of the Bellingen Community for over 25 years caring for young children. The service offers creative and individualised care settings that encourage creativity, investigation, experimentation and learning through play within small groups in a natural setting.

Activities & programs are designed by the service's qualified educators, to cater for the children's individual needs & interests with further opportunities to promote values in sustainability, inclusion and cultural differences.

Anthiam encourages the children to explore within nature using their interests to create meaningful experiences for them to investigate.

Cath's children create and paint dinosaur feet after discussing dinosaurs and exploring this timeline.
